PREFACE

It has long been felt that there should be a catalogue of the articles in the Historical Building, and many requests for such a publication have been made. It is true a catalogue was printed in 1899, but the many additions made since, particularly in 1907, at the time of the opening of the new building, and the numerous additions since that again, necessitate another, and it has frequently been asked that some description should be given of the most interesting articles so that the public may be able to refer to it for information of the many valuable documents, as well as rare books and pamphlets. The catalogue will not be sent to members, as the regular publications are, but is to be purchased, as it is a gift to the Society by one who has always been a good friend to the Society, and is intended to be of pecuniary benefit to us.

The Society was organized in December, 1895, and since that time we have printed twenty pamphlets, issued fifteen reports, placed eight historical markers, over five thousand articles of historical interest have been collected, and an historical building erected, with furnishing at an expense of over $5,000. There are 170 members scattered over the broad Dominion, some in the United States, and even in England. The undertaking of making a catalogue has proved a much more onerous task than was expected, but it is believed it will be a great benefit for reference to the Society and the public at large.

JANET CARNOCHAN, Editor, His. So.

This Catalogue is printed and presented to the Society by the courtesy of J. Ross Robertson, of Toronto.
